The Director
Ajegunle Community Project (ACP)
Ajegunle,
Lagos State.

WHAT THE SCHOOL GAINS FROM AJEGUNLE COMMUNITY PROJECT (ACP)

This NGO is a rare organization in our locality which if spread to other localities in Lagos State will be wonderful.

There are NGOs there are NGOs. ACP has really made remarkable impact in the lives of our students.

The highlights are:

- * Introduction of Anti-Violence Club in our school.
- * Regular workshop/seminar for teachers and students on implications of gender violence, very well organised with welfare packages which no other NGO has EVER done.
- * ACP is a family name in Education District V (Lagos State) as a result of their impact on our adolescents children.
- * Their presence has really helped the teaching work as we have less sexual harrasment, less teenage pregnancies, with high level of self esteem.
- * Finally, their project touches the three domain of education - cognitive, Affective and Psychomotor.

They are not only real but practical with monitoring and follow-up capacity.
