Ajegunle Community project  
64, Kirikiri Rd, Ajegunle  
Lagos

Dear Madam,

## LETTER OF COMMENDATION

It has come to our notice that your organization is really building up a strong awareness on the students and teachers of schools, including my school, over gender discrimination on girl child- violent campaign sexual harassment and other vices

Although there has not been any case of such like sexual harassment and other vices in our school in the recent time. Effect of your efforts are felt in the area of the Ajegunle community project club in the school, also during the campaign on every extra- curricular Wednesday of the week.

Summarily, the general students are now aware of their rights. The girls are now assertive of their sexual right; and are coming out of their shells to discuss their problems with counselors.

We therefore solicit for more sponsorships and advocacies in these areas

Thanks you for the great work and more grease to your elbows
